Tree Seedlings and Hardy Ferns

WOODS-GROWN—FOR SEASON 1933-34.

NOTICE. The stock offered on this list is not finished plants but is woods-grown, collected stock from the mountains and forests suitable for nursery planting. Woods grown or collected stock is not to be classed with nursery grown or cultivated plants. We do not recommend the woods grown plants as being as good stock or giving the satisfaction that nursery grown plants do. The difference is that it comes at cheaper prices and some of the items offered herein are hard to find in nursery grown plants.

NOTE—Most collected seedlings such as Maples and some others, except large sizes, are crooked near the ground and should be cut back to crown before planting. They grow up straight, smooth and much faster and quicker than when planted without cutting back.

Under the nurserymen's marketing agreement adopted by the A. A. N. at Chicago, July 1933 wholesale terms of sale shall not exceed 60 days net, with a cash discount of 2 per cent for payment within ten days from date of invoice and shipment, or 1 per cent 30 days. Interest at the rate of 6 per cent per annum shall be charged on accounts from date of maturity. Our prices are very low for the stock offered, and we will try to see that the best stock obtainable is shipped out.

In placing your order for collected stock allow us a few days to have the stock dug. This will insure you getting freshly dug seedlings.

TERMS. Terms are net 60 days from date of invoice. Cash discount 2 per cent ten days; 1 per cent 30 days from date of invoice. Interest at 6 per cent charged after 60 days. For cash with order a discount of 5 per cent is allowed. All stock sold F. O. B. McMinnville, Tennessee. Packing free.

BOYD NURSERY CO., McMINNVILLE, TENNESSEE

HARDY FERNS.

Graceful and Popular Plants of Easy Culture.

We wish at this time to call your attention to the five varieties which we dig here in the mountains. These ferns have not been cultivated, but are just dug from the forest. We ship thousands of them every year, and so far as we know, they are giving general satisfaction, and the prices at which we are selling them give us only a small margin of profit for handling them. We give short descriptions as follows:

ADIANTUM PEDATUM. Maiden-hair fern. A graceful species, with large deciduous leaves, dark chestnut-brown stipes radially forked at the summit. One of the beautiful

native ferns. Grows 10 to 15 inches high. Small roots.

\$1.00 per 100; \$7.00 per 1000.

DICKSONIA PUNCTILOBULA. Hay-scented fern. A handsome large fern with thin and delicate leaves, from one to three feet long. Stipes clustered, pale green and sweet scented, bearing many soft green pinnatifid divisions. A very handsome deciduous species.

\$1.00 per 100; \$7.00 per 1000.

OSMUNDA CINNAMOMEA. Cinnamon Fern. A stately large Fern with very large creeping rootstocks. Leaves deciduous, produced in circular cluster, bright green with

pinnatifid divisions, growing 3 to 5 feet tall. A very ornamental fern.

\$3.00 per 100; \$25.00 per 1000.

OSMUNDA REGALIS. Royal Fern. A vigorous tall growing fern with good stout rootstocks. Fronds will measure a foot or more wide, growing 2 to 5 feet tall, fruiting portions panicles at the summit. We ship in clumps.

\$3.00 per 100; \$25.00 per 1000.

POLYSTICHUM ACROSTICHOIDES. Xmas A beautiful evergreen fern with densely chafy stipes. Leaves deep green with numerous pinnae, 1 to 2 feet long.

\$1.50 per 100; \$10.00 per 1000.

EVERGREENS, WOODS-GROWN.

The small evergreens are gathered on the mountains, and only on damp days when weather is suitable. The small bare-root evergreens all should be shaded first year. We can supply some nice balled and burlapped clumps of Mountain Laurel. Also Red Cedar trees are ready for permanent planting.

ILEX OPACA. American Holly.

VINES AND CREEPERS.

We are in position to supply the following woods grown vines, which are nice for lining out in nursery.

BIGNONIA RADICANS. Trumpet Vine. A native, hardy, strong climbing vine with good leaves and scarlet, trumpet-shaped flowers in summer.

Per 100 Per 1000

One-year seedling.....\$.75 \$ 6.00

Two-year seedlings..... 1.25 10.00

CLEMATIS VIRGINIANA. A native climbing Clematis, similar to the Paniculata. The flowers are white, borne in leafy panicles in July and September. Very hardy.

Two-year seedlings No. 1. 4.00 35.00

LONICERA HALLIANA. Hall's Japan Hon-

ey-suckle. Dark green, dense foliage, almost evergreen, with fragrant white flowers, changing to yellow. A good old dependable Honeysuckle. Grows rank under any conditions.

Small rooted layers

for lining out.....	.65	5.00
Medium lining cut.....	1.00	8.00
Heavy dug plants.....	2.00	15.00

LONICERA SEMPERVIRENS. Scarlet Trumpet Honeysuckle. Grows 10 to 15 feet. A very useful vine, blooming from June until October. The blossoms are bright scarlet, trumpet-shaped and very showy. The vine is a strong grower, with rich, dark green leaves.

TREE AND SHRUB SEEDS.

Fresh Gathered Fall Crop 1933.

We are in position to gather Tree Seeds of the varieties listed, of course, subject to crop conditions, accidents, limitations, crop failures and our ability to gather the seeds. There is going to be a very light crop and suggest you place your reservation order as early as possible. Shipments will be made as soon as seeds mature. We reserve the right to fill orders in rotation, while supply lasts, and it is understood and agreed that should orders exceed supply that we shall not be held responsible in any way for inability to fill orders.
